RE: PRICE INCREASE NOTIFICATION

Dear Valued Customer,

We appreciate the strong partnership we share and value the trust you place in Struktol Company of America (SCA) to support your operations.

Over the past several months, global supply chains have continued to face severe and unpredictable pressures. Despite our ongoing efforts to absorb and mitigate these rising expenditures internally, we are experiencing persistent, significant cost escalations across critical raw materials, energy, and global logistics.

Because of these sustained market realities, and to ensure we maintain the high product quality and reliable supply continuity you expect from us, SCA must implement a product price adjustment effective for all shipments on or after **July 6, 2026**.

The details of this adjustment are as follows:

- **Adjustment Range:** Increases will range from \$0.03 to \$0.44 per pound, varying by product line and its specific raw material composition.
- **Effective Date:** This adjustment will apply to all orders—including existing backlogs—scheduled to ship on or after July 6, 2026.

We understand that managing costs is incredibly challenging right now, and we do not take the timing of this decision lightly. Your Struktol Sales Manager or Area Agent Representative will reach out to you directly in the coming days with specific details for your product portfolio and to discuss how we can best support your upcoming requirements.

Thank you for your continued understanding, loyalty, and partnership as we navigate these dynamic market conditions together.

Best regards,

John Ohradzansky

Director of Sales and Marketing
